Time Out Says

What to do when an alien emissary from the future starts telling you to paint cosmic visions? As Paulina Peavy (1901–1999) figured, you do it. She first encountered her spirit guide, named Lacamo, in 1932 at a séance. From then on, she produced extraordinary abstractions that conveyed secrets of the universe which he transmitted to her in a collaboration that, according to Peavy, spanned space and time.
